CloseTesters LABS™
GLOBAL QA MATRIX • ISO/IEC 25010 & 27001 CERTIFIED

★ TIER-1 GLOBAL ENTERPRISE QA & AUDIT PROPOSAL

World-Class Application QA, 14-Day Google Play Approval & 360° Web Audit

An authoritative, end-to-end commercial proposal for global engineering teams, software studios, and high-growth app publishers demanding 100% Google Play Production Clearance, non-intrusive full-stack website audits, and Generative AI (GEO) search dominance.

PREPARED FOR	PROPOSAL REFERENCE	EFFECTIVE DATE	ISSUING AUTHORITY
Engineering & Product Leadership	CT-PROP-2026-GLOBAL	November 2026 • 30-Day SLA Lock	CloseTesters Labs (Indore HQ)

Executive Summary & Value Proposition

In 2026, Google Play's rigorous 20-tester, 14-day continuous closed testing policy causes over **82% of global app launches to be rejected** due to reliance on synthetic bot farms, emulators, and unmonitored peer-testing circles. CloseTesters Labs solves this bottleneck permanently.

We deploy a verified fleet of **20 physical OEM flagship smartphones** (Samsung, Pixel, OnePlus, Xiaomi) operated by dedicated Senior QA Performance Architects for 14 continuous days. Backed by automated telemetry, deep crash diagnostics, certified **ConsoleDeclaration AI™** survey generation, and an unconditional **100% Production Approval SLA Guarantee**, we ensure immediate, unhindered commercial deployment.

LEGAL CONFIDENTIALITY & ZERO-SOURCE-CODE COVENANT: This proposal contains proprietary testing methodologies, fleet architectures, and commercial pricing models of CloseTesters Labs. All engagements are executed under a strict bilateral Non-Disclosure Agreement (NDA). CloseTesters never inspects, retains, or requests proprietary client source code or server credentials; all diagnostic telemetry is generated purely via non-intrusive client-side interaction and external browser profiling.

FLAGSHIP QA TRACK • 100% PRODUCTION APPROVAL GUARANTEE

20 Physical OEM Devices Fleet vs. Synthetic Peer Risks

Google Play's updated algorithms actively detect and penalize emulator farms, reciprocal peer-testing circles, and rapid install-and-abandon behavior. Here is how CloseTesters delivers certified production access.

✕ The Fragile Testing Trap (82% Failure Rate)

- **Reciprocal Credit Pools:** Developers opening apps for 5 seconds to earn tokens; zero real engagement.
- **Cloud Emulators & Bots:** Shared VM fingerprints instantly flagged by Google SafetyNet and Play Integrity.
- **Zero Diagnostic Telemetry:** No memory leak detection, no ANR traces, no actionable crash reports.
- **Survey Rejection:** Vague answers on the 20-question production declaration lead to immediate access denial.

✓ CloseTesters Physical Fleet Architecture

- **20 Authentic OEM Handsets:** Real physical devices across diverse SOCs (Snapdragon, Tensor, Dimensity).
- **14-Day Consecutive Daily Sessions:** 15–20 minutes daily authentic human interaction per device.
- **Real-Time Hardware Telemetry:** Cold startup benchmarks, memory consumption graphs, battery drain curves.
- **ConsoleDeclaration AI™:** Ready-to-paste, audit-proven responses to Google's 20 production questions.

Dedicated OEM Handset Roster Sample (Zero Emulators)

TIER & CATEGORY	PRIMARY OEM DEVICES	OPERATING SYSTEM	DIAGNOSTIC FOCUS
Ultra-Flagships	Samsung Galaxy S24 Ultra, Pixel 9 Pro	Android 14 / 15 (API 34/35)	High-refresh display (120Hz), thermal throttling & GPU rendering
Next-Gen Foldables	Samsung Galaxy Z Fold 3, Pixel Fold	Android 14 (OneUI / Pixel UI)	Dynamic aspect ratio transitions, posture state & dual-screen UX
Global Mainstream	OnePlus 12, Xiaomi 14 Pro, Vivo X100	OxygenOS 14, HyperOS 1.0	Aggressive OEM battery savers, background service kills & push alerts
Clean AOSP & Mid-Range	Nothing Phone 2, Moto Edge 50	NothingOS 2.5, Hello UI	Stock Android compatibility, memory management on 8GB RAM

⏱ 14-Day Closed Testing Execution Timeline

Days 1 – 3
Baseline Ingestion: Closed track sync, opt-in verification, and cold-launch latency audit.

Days 4 – 9
Deep Functional QA: Daily user interaction, network stress tests, input edge cases & leak tracking.

Days 10 – 13
Endurance Benchmark: Background sync, crash-free session metrics & battery efficiency curves.

Day 14
Console Declaration: Synthesis of complete 20-question declaration survey ready for instant approval.

NON-INTRUSIVE TELEMETRY • ZERO SOURCE-CODE ACCESS NEEDED

360° Technical Website & Web-App QA Audit Engine

Before investing in digital ad spend or enterprise scaling, your web application must be certified for conversion flow, Core Web Vitals, and security headers. Our 4 Senior QA Leads evaluate your digital storefront with sub-second precision.

UI/UX Ergonomics & Interaction Lead
LEAD: PRIYA SHARMA • WCAG 2.1 COMPLIANCE

- Contrast ratio evaluation (AA/AAA) across dark and daylight conditions.
- Minimum 48px touch-target compliance to eliminate mobile mis-clicks.
- Micro-interaction latency and responsive viewport friction teardown.

Automation & Functional QA Lead
LEAD: ROHAN VERMA • HEADLESS DOM ENGINE

- Full-site crawler identifying 404 broken hyperlinks and redirect chains.
- Uncaught JavaScript console exceptions and runtime memory bloat.
- Input boundary sanitization and form validation edge-case analysis.

Core Web Vitals & Speed Auditor
LEAD: NEHA SINGH • PERFORMANCE SPECIALIST

- Largest Contentful Paint (LCP) profiling aiming for sub-1.2s benchmark.
- Cumulative Layout Shift (CLS < 0.05) to eliminate jarring page re-flows.
- Interaction to Next Paint (INP < 200ms) and asset payload compression.

Compatibility & Security Analyst
LEAD: VIKRAM MALHOTRA • CYBER DEFENSE

- Rendering parity across Safari (WebKit), Chrome (Blink), and Firefox (Gecko).
- Deep HTTP security headers: CSP, HSTS, Clickjacking & CORS isolation.
- Mixed-content detection and modern TLS 1.3 cipher verification.

Modular Ultra Deep Technical Audits (Zero Code Ingestion)

MODULE NAME	TECHNICAL SCOPE & DELIVERABLES	TURNAROUND SLA	PRICING ADD-ON
Frontend Asset & Bundle Bloat	JS/CSS bundle bloat inspection, unused CSS trees, render-blocking scripts & WebP/AVIF asset optimization.	24 Hours	$5 USD
Security & HTTP Headers Hardening	CSP directives, HSTS preload compliance, X-Frame-Options clickjack defense, and CORS data leak audit.	24 Hours	$6 USD
12-Device & Cross-Browser Deep Matrix	Pixel-perfect rendering across iPhones, Galaxy S-series, Foldables (Z Fold/Pixel Fold), and Tablets.	48 Hours	$7 USD
Form & Checkout Funnel Friction	Multi-step checkout validation, payment gateway drop-off diagnostics, and cart abandon trigger analysis.	24 Hours	$6 USD

ZERO SOURCE-CODE REQUIREMENT: CloseTesters strictly performs external diagnostic audits using real Chromium DevTools, network profiling, and DOM crawlers. Your intellectual property, server keys, and source repositories remain 100% untouched and air-gapped.

NEXT-GEN SEARCH • GOOGLE ORGANIC + AI ENGINES (PERPLEXITY & CHATGPT)

Enterprise SEO & Generative Engine Optimization (GEO)

Search behavior has permanently evolved. Today, high-value international buyers discover applications and software solutions through both Google SERPs and Generative AI engines (Perplexity, ChatGPT, Claude, and Gemini). CloseTesters delivers holistic dual-search dominance.

🤖 Generative AI (GEO) Readiness

We structure your site entities and inject canonical **llms.txt** and JSON-LD taxonomies so LLM crawlers (GPTBot, ClaudeBot, Perplexity) directly cite your application as the definitive market leader.

📈 Technical SERP Crawl Hygiene

Complete elimination of crawl budget waste, index bloat, redirect hops, canonical anomalies, and broken sitemaps. Ensures 100% rapid indexation of high-converting product pages.

🏆 Google E-E-A-T Authority

Engineering robust Experience, Expertise, Authoritativeness, and Trustworthiness signals across author schemas, technical citations, and toxic backlink disavowal architectures.

Enterprise SEO & GEO Retainer Tiers (Global Commercials)

TARGET GEOGRAPHIC MARKET	STANDARD ANCHOR FEE	SPECIAL CLIENT RATE	BILLING TERMS & SLA GUARANTEE
US United States & Global Anchor (USD)	~~$499 USD~~	`$349 USD (Save 30%)`	100% Production Clearance or Immediate Refund
GB United Kingdom (GBP)	~~£399 GBP~~	`£279 GBP (Save 30%)`	Instant Corporate VAT Invoice • Fixed Fee
EU European Union (EUR)	~~€449 EUR~~	`€319 EUR (Save 30%)`	SEPA & Global Card Gateways Supported
AE United Arab Emirates & Gulf (AED)	~~1,790 AED~~	`1,290 AED (Save 28%)`	Direct Middle East Remittance Compatible
AU Australia & Oceania (AUD)	~~$749 AUD~~	`$529 AUD (Save 30%)`	Full 20-Handset Daily Survey Telemetry
CA Canada & North America (CAD)	~~$679 CAD~~	`$479 CAD (Save 30%)`	Enterprise Google Play Clearance SLA

💡 The Generative Engine Optimization (GEO) Advantage

When an international enterprise buyer asks ChatGPT or Perplexity: *"What is the most reliable application in [your niche]?"*, the AI doesn't read meta keywords—it evaluates structured entity graphs and trusted knowledge repositories. CloseTesters ensures your brand is indexed and synthesized as the premier authority.

FLAT TRANSPARENT FEES • ZERO HIDDEN CHARGES • STRICTLY ONE-TIME

Global Investment & Multi-Currency Pricing Matrix

We believe in complete pricing transparency. All testing tracks feature strictly one-time billing with zero recurring fees, zero subscription lock-ins, and backed by an unconditional 100% money-back SLA guarantee.

Flagship 14-Day Closed Testing Track (20 Physical Devices + SLA)

TARGET GEOGRAPHIC MARKET	STANDARD ANCHOR FEE	SPECIAL CLIENT RATE	BILLING TERMS & GUARANTEE
US United States & Global (USD)	~~$499 USD~~	$349 USD (Save 30%)	100% Money-Back Guarantee or Free Cycle
GB United Kingdom (GBP)	~~£399 GBP~~	£279 GBP (Save 30%)	One-time fee • Instant Corporate VAT Invoice
EU European Union (EUR)	~~€449 EUR~~	€319 EUR (Save 30%)	SEPA & Global Card Gateways Supported
AE United Arab Emirates (AED)	~~1,790 AED~~	1,290 AED (Save 28%)	Direct Middle East Remittance Compatible
AU Australia & Oceania (AUD)	~~$749 AUD~~	$529 AUD (Save 30%)	Full 20-Handset Daily Survey Telemetry
CA Canada & North America (CAD)	~~$679 CAD~~	$479 CAD (Save 30%)	Enterprise Google Play Clearance SLA

Agency & Multi-Application Bulk Deployment Bundles

📦 3-App Studio Pass

$849 USD (Save $198)

Perfect for indie game developers or mobile utility studios launching a multi-app portfolio simultaneously.

🚀 5-App Agency Fleet

$1,299 USD (Save $446)

Our most popular partner tier for software agencies delivering turnkey mobile projects to end clients.

🏢 10-App Enterprise Pass

$2,299 USD (White-Label Ready)

White-labeled audit reports with your agency branding, dedicated Slack dispatch, and priority fleet scheduling.

🛡️ THE CLOSETESTERS 100% UNCONDITIONAL REFUND COVENANT

If Google Play denies production access after completing the 14-day closed testing track with our real OEM fleet and submitting our certified ConsoleDeclaration AI™ answers, CloseTesters immediately refunds 100% of your payment via the original payment method. Alternatively, you may choose a complimentary 14-day cycle at zero cost.

MUTUAL COMMITMENT • BILATERAL NDA • EXECUTIVE SIGN-OFF

Corporate Governance, Legal Protection & Execution

This document constitutes a binding technical proposal. Upon countersignature or digital order activation, CloseTesters immediately reserves your dedicated 20-device OEM rack and assigns your Senior QA Engineering leads.

📜 Bilateral NDA

Strict mutual confidentiality regarding business models, technical architecture, pre-launch features, and telemetry diagnostics.

💡 100% IP Retention

The client retains 100% exclusive intellectual property, trademark, and distribution rights to all uploaded binaries and assets.

⚡ 15-Minute Response

Direct priority hotline and emergency dispatch desk via partners@closetesters.com for real-time testing coordination.

Executive Authorization & Acceptance

ISSUED BY: CLOSETESTERS LABS™ (QA & BUSINESS TEAMS)

CloseTesters Executive Board

Representing Senior QA Fleet Architecture, Functional Testing Leads, and Commercial Governance Division.

Authorized Signatory: Sandeep Jaiswal **Date:** 09 Nov 2026

✓ DIGITALLY SEALED & VERIFIED BY FLEET COMMAND

ACCEPTED BY: CLIENT AUTHORIZED REPRESENTATIVE

[Client Organization Name]

By countersigning or completing digital payment on closetesters.com, client accepts the Master SLA and Scope of Work.

Signatory Name & Title: _____ **Date:** _____
